Subject Re: grant application under Leveraging Leadership

History: This message has been forwarded.

Mivic,

Our review team has had the opportunity to read and discuss the various proposals received under the Leveraging Leadership QI Initiative for the CHCF Fellows. The review team liked your proposed project focused on changing the culture of care at Laguna Honda and implementing a social rehabilitation model and recommended its approval, contingent upon receipt and approval of some additional information that we will need before we can make a final decision. This includes:

1) We would like more information on the social rehabilitation model and what it includes. Could you please send a description of the model and its components. Has this model been used elsewhere, and if so, where, and with what level of success? Has it been evaluated? If so, could you please also send information on the results of the evaluation. . . or refer us to the appropriate hyperlink.

2) The reviewers would like you to consider involving Lisa Pascual, MD, in this project.

3) The reviewers suggested that your time line may be too aggressive and suggested that you consider focusing this project on the first 30-bed unit. If you believe that you will be able to move to a second unit during the grant period, please explain how you will be able to meet the proposed time line given the unionized environment and other institutional constraints? How far along are you in the planning at this point?

4) The review team also suggests that you consider creating a small advisory committee for the project that might include one or more individuals from the independent living center in San Francisco (or from other organizations interested in the reentry of disabled adults into the community) to help shape the project. Perhaps Dr. Pascual could also serve on this committee.

Our goal is to announce the proposals selected for funding by November 12th. Could you get back to us by then with a response to these questions/suggestions so that we can make a final decision. If you can't, could you please give me a call so that we can discuss this. . . or feel free to call me either way if you have questions or would like to discuss any aspect of this. My direct line is 510-587-3110. We look forward to working with you!

Thanks.

Jan
